

Configuration (Internship site)

New internship sites can be created here as well as specify the number of students for a given site. Configure as follows

- 1) Click on "select an option" to select the academic year for which the internships are open.
- 2) Select the semester and click the button "Next."
- 3) Next select the class to whom a given internship site and number of students are to be assigned.
- 4) Click save.
- 5) The number of students for a given internship site can be updated
