

Marks management (add course)

Courses offered by a student and the results for that given course that were not found are added using Add Course: Follow these steps

- 1) Enter the student's name or matricule. Once the name displays on typing, select the name by clicking the name.
- 2) Select the academic year for whom the course and results were not found.
- 3) Select the semester to which the course and result are to be added.
- 4) Click the button "next."
- 5) Search the course title or course code on the field "course" and click on it.
- 6) Add CA mark and exam marks.
- 7) Click the "add course" button.
- 8) Course added successfully.
